

2026 Laboratory Safety and Health Training Course

A. Organizer: Office of Environmental Safety and Health

B. Participants

- Students entering master's or doctoral programs in the 2026 academic year (Academic Year 115) who are required to work in laboratories, including examination candidates.
- Faculty members, research assistants, undergraduate students, and external personnel who need access to university laboratories but have not yet completed the required safety training.
- Graduates who are required to obtain a laboratory safety training certificate.

C. Course Date: November 21, 2026 (Saturday)

D. Location: Shuinan Campus, China Medical University (CMU)

E. Registration Period: October 21 – November 13, 2026

F. Important Information

1. **Full attendance is mandatory.** To receive a training certificate, participants must attend both the morning and afternoon sessions, sign in for each session, and pass the examination.
2. Training certificates will be issued to participants who pass the examination. Please keep a copy of your certificate in your laboratory for future reference.
3. Only 2B pencils may be used to complete the examination answer sheet. The examination is graded out of 100 points, and a minimum score of 70 is required to pass.
4. Lunch will **NOT** be provided. Participants are responsible for their own lunch.

G. Inquiries

For questions regarding registration, please contact the Office of Environmental Safety and Health at cmccesh@mail.cmu.edu.tw.
